Our Fall and Winter stock of Men's, Youths, Boys' and Children's Clothing is now complete, and if variety, in correct styles of designs and patterns, in connection with the very best workmanship, thereby produring the best fitting Clothing, count for anything, we think we are better prepared to serve the public this Fall than ever before, or any one else in our line

In keeping with these facts we have not overlooked THE most essential point, the MIGHTY DOLLAR. Twenty-three years of experience in our business, with undivided attention, without which no business can be made a success, has enabled us to pay CASH for every dollar's worth of goods we buy. This means a decided advantage to our customers, as goods cannot be sold ight unless bought right.

as freely as will go in the votes in November for American protection.

From the stand in the square were fired the exhibition pieces by F B Mueller, Adolph Mueller and Ben Taylor, who worked hard for two hours. They used pyrotechnics known as the show of pearls, illuminated vertical wheels and batteries, galopades, silver glory, Chinese fire, diamond stars, chaplet roses, floral bombs, large geysers, 2-pound exhibition rockets and bombs, 4-pound parachules, and other pieces too numerous to mention, and while the stand pieces were being fired rockets were fired constantly being fired rockets were fired constantly from the corners on top of the New Dem-ing hotel, "Cheap Charley's building and Qunn & Seyforth's eiger store. The Quinn & Seyforth's eight store. The firing of the rockets was in charge of W H Bramble, John C Millspaugh and J C Crane, who had competent assistants

THE ILLUMINATIONS Judging from the elaborate illuming tions along the route it seemed to the stranger that there were few if any Dem ocrats in Decatur From the depot to the end of the march the yards, residences and boulevards were a blaze of hight and beauty, with trimmings of flags, bunting and pictures Out West Main, Prairie, William and North streets, thous ands of Japanese lanterns lined each side of the streets for blocks, producing an effect that was at once striking and beau-tiful. No wonder the visiting clubs cheered the decorations—they couldn't resist it. In the doorways and on the lawns Decatur ladies waved greetings to the marching hosts and at intervals "Private Joe" and Lis party in currages were roundly cheered. The Insmess portion of the city was splendidly decorated from end to end. Below are the names of citizens who decorated their homes in the residence portion of the city

THE GRAND DISPLAY OF FIREWORKS

One of the principal features of the might of Kepublican enthusiasem issued from the parade, was the brilliant pyrotechnic display on Lincoln Square, under the management of the Young Men's Kepublican Club The fireworks were aplendidly managed and the effect more than met the expectations of the people who were lavish in their praise Members of the club, loaded with satchels of Roman candles, saluted the procession on the different streets by firing the candles over the heads of the marching clubs. On North, William, Prairie and West Main street the display was grand, but when the column moved around on Lincoln Square, then began a fusilade of sky scraping rockets, explosion of costly in the column moved around on costly in the column moved around of the column moved around on the column moved aro they were forgotten

"HOME COMFORT" FURNACES.

Wrought Steel, Malleable Iron, Very Little Fuel, No Leaky Joints.

No one can say that the time was not ripe for a new furnace. The days of brittle, porous, cast iron furnaces are numbered. In every branch of manufacture east iron is being driven out by wrought iron and steel. Every bridge that goes down in a wreck of lives and property is found to have cast non members. Every bursting cannon which slays its friends rather than its enemies is made of cast iron. Every leaky furnace which poisons a household with its noisome gases is found to be made of the same cheap, unreliable material. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.

It was a free trade atterance, and let me say to you there are but two parties in the world which favor free trade, and they are the it is true is charged by the democratic party—the lifty shirt, burefoot party—that are many shirts occupy a high post to make the country of most shirts and they are the democrates of the United States and they are the democrates of the United States and they are the democrates of the United States and they are the democrates of the United States and they are the democrates of the United States and they are the democrates of the United States and they are the democrates of the United States and the concept shifts Leglish could vote Clevelard would be ars held high multitry position that no The democratic newspapers and the Lig mun is fit to be governor of the state of lish newspapers seem to have formed

But let us come to a consideration of the natoral material that they were obliged action taken in the lower house of con to take a provide for their candidate 1 gress to reduce the simplies. The ways and me me committee formulated and re ported a bill in accord with the views of and that Gen Palmer would find him the president as expressed in his message more than his equal. Lies always take on. In the 19th congress a pension bill was Well I was not passed which would have taken \$2,000 000 of this surplus tund democratic he, i type with which ou are all familiar. The democracy who needed it, but it it is not de sired by Mr Cleveland that the raterests of his friends the bank chough for my weakingman They also ers be protected. Now pension money r change and of comes falsely, and just as mathematically, that for Tifer and in a speech that \$1.25 per day was good wages for a workingman. Like charges have been made against other republicans of both the monthly of the common people. His vette was in the interest of the money gamblers. Now to return to the bill reported by the public of money and means comments. It is been ways and means committee. It is best known as the Mills bill. Let me tell you something about that committee

The democrats are Messrs publicans Mills, Buckenridge, Turner, McMillar and Wilson, all from southern states, il ex confederates, with no knowledge o the great industries of the north and west and Mr Scott, of Pennsylvania, a Con opposed to me, I should have won the Bynum, of Indian i, and he den t count The great financial interests of (0,000 000 pr scrated cuminds in Melein county persons is you perceive the entrusted to the keeping of the late confederacy | This committee so constituted reported a reve nuc bill. It was in two sections one reduced the tariff the other the internal revenue The democratic orators charge out of business and will have time to get out that the republican party is the free whisy and tecome requested with Joe He Hind him very much of a min Now let's talk party If they ever succeed in rinking the runk and file of the democrats believe that there will be no democrats left thout something else. In the change over the republic in puty, a convention of the republic in puty, a convention which represented the enterprise and them comp. [I aughter] The democrats the which represented the enterprise and them comp. [I aughter] The democrats in always discovering mark a nests. party? One of the provisions of the Mills is to the effect that distillers who mish less than 25 bushels grain daily shall be exempt from the surveillence of government officers and that the tax shall be levied according to returns made by the distiller himself Now, as we go south of Mason & Dixon line the capacity of the distilleries de crease. The average distiller does not mush more than twenty five bushels per the four market is the best. Whit is the bird with the binding southing which he used day, and thus we see the sectional charge market is the bird. It is mark. I suppose in order to reduce his laundry ter of the bill. The Southern distillers by the limits men into and copper I bills has become the banner of his party. M lugur, the miners of the Rocky room tuns in I the non-workers of Pennsylva to The They make it. Over 91 per cert of your product is consumed at hem. the democrats had renommated Clevel and dawning that Sam Randallism must go Tenturis No subtherenominated hisself and free trude was the hallying cry. Let from club platform. We republicans, too, I with others of my political associates ent the lite mething it me than decent and would be trumpled under foot. But the Tirmers and workingmen didn't rush. On the contrary the intelligent democratic famers and laborers came to our support, and thover saw the handwriting on the will 'Get out of the White House then Milis went to New York and New Bersey and Connecticut to quet the fever of the people. Now, if the turnit system is illog In when he cone aded it was a good took would this reduction have made it thing to accumulate money in the mation less so? Now the democrats say the Mills bill is not a il treasury instead of piving off binds called unless it was because he was so For ten morths not a bond was called the trade measure. Ask the farmer what he to He continued. I un not a public this cest the people \$1,000,000 but the free trade measure. Ask the farmer what he speaker in I will not attempt to make a money kings profited to that extent and peas potatoes and other farm products are free feeth but will reason on the tanif from that was what Grover wanted. A voice lish that free trade? Brick are on the free hat That's what's the matter with Hannah by Dent our farmers and brick makers on the Can lumber are on the free list. Therefore deart our strange passion for vetoes these demo but the, are such as do not compete with American products. This is the republican idea but when Mills and his lark lantern asso lates get up a bill they put on the free list articles the like of cratic tree trade ideas And they say that wool no wool in the country where will you buy your lothing? You will get it in England and do you hink that the English manufacturer would not bleed you if he should have the opportunity on would have to submit to robbery or go cold Frank Hurd admits that the effect of free wool s an increase of the price of woolens Lanham Texas, admitted the same thing in the tank debate If this be true how does free wool give us cheap clothing To-day we are losing our flocks because of the reduction of the wool tax made in 1883, and the opportunities which the

000 for the sufferers in Ireland I K the waste of their lumber mills for fuel and it osts them practically nothing Put both lumber and salt on the free list and you destroy ooth industries California has a growing raisir industry It promises to soon make usinde endent of Spain, yet Mills seeks to put his scalp ng knife into play here and should be succeed would check or distroy its development. The Mills bill too substitutes advaloren for specific duties A specific duty is the very essence of protection—an advilorem duty is the very es ence of free trade We are told that the Mills oill makes only a " per cent reduction Weil the estimated reduction at would make in the reve nues is \$54 000,000 The total amount of revenue the surplus in the treasury has steadily ollected is \$215 000 000 If \$54 000 000 is not more than " per cent of \$215,000,00%, I don't ear it amounted to the enormous sum of now anything about arithmetic 1 say the dem ocratic party is a free trade party. Free trade doesn't mean no duties. Duties on imported goods which compute with domestic goods are not taxes on you. They protect you from exter ionate charges They are not only not taxes inder our present system, but actually relieve you of the layment of \$200 000 000 to foreign manufacturers. I challenge any democrat or loctrinuire to point out any article of domestic ousumption the ike of which is produced here which is not cheaper to day than it ever was un derfree tride. But they say price have fallen nerywhere has but prices have never fillen In the I mited States until a finish act enabled w to manufacture for ourselves Fifteen years ago no American silk was manufactured. Now three fifths of all the silk sold in our markets is Ameri can silk and it is one third the iper than it was before we had American silk. This is one of the beneficient effects of a truiff tax. The same r true of crockery 1 | both the silk underockery industries are attacked by the Mills bill I might further illustrate this point by the nail plate glass and ther industries. Nine tenths of all ar cles may ried are is cleap here as in Lugiand I may mention witches clothing bod's and shees. Cheq.1 = 18 1 good thing and child thing If y a cheapen a product until you at tack the labor which produces it you ittack the very foundation of the social fabric New the question is will y where ik d win the could attorn which has developed under a bei ficiett pret c two system or will you everthrow that system and place yearse ves upon the 1 wer level of the civilization of Europe.
